Vile and Unworthy

Of consideration are the nostrums of which it is asserted-and there are many such-that they cure immediately ailments of long standing. There are none such that can. Chronic disorders cannot be instantaneously removed. Continuity in the use of a genuine medicine, such as Hostetter's Stomach Bitters, will eradicate chronic physical evils. Not the least of these last in the force of its opposition to medicine is constipation, to the removal of which, if persisted in, the Bitters is particularly adapted. -Con striction of the bowels is a complaint which should be dealt with early and systematically. So are its usual attendants, liver complaint and dyspep sis. For these, for malaria, rheumatism, kidney trouble, and more recently "la grippe" this highly and profesfonally recommended medicine is an undoubted specific. Nothing can exceed it, moreover as a means of im parting strength to the feeble and

Chunks of flesh were cut from the quarters much as a butcher would carve a beef. Portions of the body had been knawed by \$ 50 00 the dogs with the savages. Another report is that the telegraph wires 5 00 along the Southern Pacific railroad 1 00 had been cut at a point in Arizona west of Lordsburg, but nothing has been received by railroad officials here to confirm the statement. Troops 3 00 from Fort Bowie and Fort Bayard are in close pursuit, and it is thought it is only a question of a short while until the members are brought in either dead or alive. Insemuch as the troops number nearly one hundred. and the renegades but 13, the chances are few but far between that "Kid" wil. give battle. WASHINGTON-It was said at the White House to-day that the President had decided to pursue a strictly conservative course in all matters relating to appointments. He does not desire the a lministration open to the charge of arrbitarily, depriving the incoming administration of patronage in a spirit of vindic iveness or retaliation. Consequently he will extend the classified service only to the degrees which he had determined upon in case of his re-election. HOMESTEAD-Not since the famous 6th of July have bullets been so plentiful as this afternoon. Inside of 20 Captain Pabet admitted that he was minutes over 50 shots were fired and Fourth avenue was in a wild state of panic and disorder. Rumors were plentiful of persons being wounded and killed, but the only ones seriously hurt apparently are three strikers. McFadden Jones and Pritchard, all of whom have flesh wounds. Three negroes were also badly beaten.

About 4 o'clock two colored men who work in the mill were met by strikers, and after some words, the latter knocked one of them down With characteric suddenness about 20

New York-Yesterday the important news leaked out that Presidentelect Cleveland had promised to be the guest of honor at a dinner given by the Reform Club early in December. The organization was the nucleus of the May convention movement, and the announcement that Cleveland would attend the banquet caused much satisfaction among the men who went to Syracuse. They took it as a sure indication that Cleveland does not propose to snub the antisnappers in the slightest degree. Since the election Cleveland has not indicated any intention of showing favor to a particular person or organization, aside from the fact that Tammany hall will not have the slightest reason to complain of its treatment
